SAM ZAFFANELLA

Frontend Developer at IntelleXt

ABOUT ME

Hello there, my name is Sam and I am a 2020 graduate of San Francisco State University with a Bachelor of Science degree in Computer Science. I am currently positioned as a frontend developer at IntelleXt, though I am always seeking more web development as well as AI/machine learning opportunities. I am a team player looking to work in a dynamic, fast paced environment.

PROJECTS

- Worked with a team to develop a JavaScript based pseudo-website that helps college students find apartments in San Francisco

- Developed abother pseudo-website that allows users to read reviews of restaurants as well as allows businesses to post their own restaurants for review (similar to Yelp)

- Made a real-time web application for playing Briscola, the classic Italian card game, using React, Socket.IO, MongoDB

- Multiple Complex java based games, such as a two-player tank fighting game
